

THE AGE DIVERSITY FORUM

make equality a reality

#championagediversity

Who we are?

The Age Diversity Forum is the global hub for age diversity in the work-place. A not for profit social enterprise, we provide a practical approach to ensure that organisations achieve the benefits and values of an age diverse work-force.

We are dedicated to ensure that all generations in work, have the same opportunities for training, development, promotion and retention

We are committed to bridge recruitment barriers, providing employability support to ensure: employers have access to the broadest and best talent, creating a level playing field for those seeking a return to work

We believe that we are stronger in collaboration and partnership, which is why we partner with organisations that want to help us drive real change. We are here to support those who feel bias and are discriminated against simply because of age, and we want you to help us do it

“ As an organisation that receives no core government funding, we value your support. ”

What we do

As a Social Enterprise, we recognise the social and community benefits of driving employment equality, and we lobby and seek influence for continuous improvement for diversity and inclusion in employment opportunities.

We are raising the awareness of the values and benefits that an age diverse work-force can bring to organisations, of all size and sector.

More companies now recognise the improved performance impact and are seeking to establish themselves as a committed employer for diversity, demonstrating those values, both for their internal landscape, as well as to external partners and wider communities.

Why we do it

Whilst the business case for diversity is more prominent, unfortunately, there continues to be challenges in breaking down barriers of age bias in the employment arena. Whether that is in the form of: negative bias, unconscious or otherwise; a lack of opportunity for employers to access key skills and talent; poor retention and retraining programmes; or for policy support requirements.

The Champion membership can support and drive strategy and values for all organisations.

Who do we do it with

No industry sector is immune to these challenges, and none are restricted by geography. **We are a unique organisation with a vision for inclusion, to remove barriers** through an application of practical service and best practice, achieved together with our 'Champions'.

How we do it

Our members support age diversity in the work-place, working with us to set the standards to address widening participation and inclusion.

By providing an influential voice for members, through our policy and campaign activity, we ensure that the needs and views of an age diverse workforce are heard by government, policy makers, and other relevant organisations.

Together with our members, we work to bring continuous improvement to removing bias and barriers.

Champions membership is achieved by organisations who commit to behaviours, actions and values, that engage an age diverse workforce through policy and governance for retention, retraining and recruitment.

The Age Diversity Forum provides members with practical service provision, and support by sharing expertise, advice and providing training and networking opportunities. We promote best practice and work with organisations to set and influence age diversity policy.

Why you should do it

Research and data confirms that those organisations who are highly rated for diversity and inclusion, show improvement in a wide range of business and people metrics.

The moral compass argument is now coupled with a strong and dynamic business case.

Such values are highly prized, and now sought after in how business is transacted. Employers are fast becoming aware of the opportunity to trade and procure, coupled to social awareness. As a social enterprise, we offer a further route

for organisations to demonstrate their attitude towards corporate social responsibility.

With our peers, such as Stonewall and the Business Disability Forum, we are the only organisation offering a practical approach to meet the challenges, and achieve the values of an age diverse workforce, whilst providing a deeper and broader platform for change. As it is for LGBT, disability, gender and BAME, it is wrong, unjust and illegal to discriminate against age.
